

# The KENT Super Bond Selection Guide

The KENT Super Bond range is optimised for any applications depending on the type of substrate you wish to bond and on the external conditions, like temperature, forces, etc.

## 1. Which materials do I need to bond?

At least one of the materials is porous or irregular Wood/Cardboard/Paper/Fabric/ Leather/Stone/Ceramic/Cork/ Polystyrene	Both materials are non porous and smooth Plexiglass/Polycarbonate/ Chipboard/ PVC/Rubber/Metal	At least one of the materials is hard to bond Glass/Polyethylene/ Polypropylene/EPDM

SUPER BOND ULTRA GEL	SUPER BOND GEL	+
SUPER BOND FLEX	SUPER BOND ULTRA GEL	SUPER BOND 2
2K SUPER BOND	SUPER BOND PEN	SUPER BOND GEL
	2K SUPER BOND	SUPER BOND PEN
		2K SUPER BOND

## 2. How would I describe the repair?

The repair requires filling cracks and holes	The repair will be subject to shocks and vibrations	The repair requires high precision	The repair must remain flexible	The surfaces are vertical or overhead
SUPER BOND GEL or SUPER BOND ULTRA GEL + ACTIVSET to cure the remaining exposed adhesive	SUPER BOND ULTRA GEL + ACTIVSET to accelerate the curing process	SUPER BOND PEN	SUPER BOND FLEX	SUPER BOND GEL
SUPER BOND POWDER + SUPER BOND 2 or SUPER BOND PEN		2K SUPER BOND		SUPER BOND ULTRA GEL

Note: For any product, please refer to the technical data sheet for the instructions for use

# KENT

## Seven Super Bond products in a handy case – all you need for the best bonding results!

Also available as an empty suitcase for filling with KENT Super Bond products

**Super Bond Flex**  
A black rubber-toughened instant adhesive for bonding flexible materials

**Super Bond Powder**  
A translucent reinforcing powder for filling holes and cracks

**Super Bond Gel**  
A high viscosity instant adhesive for bonding most porous materials

**Super Bond 2**  
A universal low to medium viscosity instant adhesive giving strong permanent repairs

**Super Bond Activset**  
A fine mist spray for increased bond strength and accelerated cure

**Super Bond Ultra Gel**  
A non-sag rubber-toughened instant adhesive with excellent gap filling properties

**Super Bond Pen**  
An universal instant adhesive in a pen for restoring and precision-repairs

**Complete set 50€**  
**Empty suitcase 15€**

All prices exclude VAT.

**ORDER NOW!**

If you have any questions or if you would like to place an order, contact your **KENT Area Sales Manager** by telephone: **0800 / 136 925**, or email: [kentsales.uk@kenteurope.com](mailto:kentsales.uk@kenteurope.com)

# KENT

## Universal instant bonding with the Super Bond Range

Trust in premium quality products from the Super Bond range – fast and efficient bonding for a variety of different materials and applications

# New products of the Super Bond range

For a perfect, efficient and even better workflow with fast and optimal results!

86663 - 10 g syringe + 3 nozzles

## 2K SUPER BOND

2K flexible instant adhesive that guarantees best adhesion

### BENEFITS

- Very strong and universally applicable – ideal for many substrates and gap filling applications
- Two components in one – no activator is needed
- User-friendly packaging and time-saving application
- Long-lasting assembly – resists expansion of the substrates
- High gap-filling properties up to 5 mm

The KENT Super Bond range offers products with different levels of viscosity:

### High viscosity

- Will not run down on vertical surfaces nor fall from overhead surfaces
- Ideal for filling gaps or irregular surfaces

### Low-to-medium viscosity

- All-round adhesive suitable for many applications
- Ideal for horizontal surfaces and where higher precision is required

## Get to know the new and improved products in the extended Super Bond range from KENT

Part No. 86614 (Standard) & 86514 (Twist) – 20 g bottle

## SUPER BOND 2

A universal low to medium viscosity instant adhesive giving strong permanent repairs

### BENEFITS

- Our all-rounder suitable for smooth surfaces and most applications
- Improved formula – resistant to high temperature (120 °C)
- Strong performances – high tensile and shear strengths

Part No. 86515 – 20 g bottle

## SUPER BOND GEL

A high viscosity instant adhesive for bonding most porous materials

### BENEFITS

- Perfect for irregular surfaces such as wood, cork, cardboard etc.
- Reduced dripping – for application on vertical surfaces
- Improved formula – resistant to high temperature (120 °C)

Part No. 86486 – 30 g bottle

## SUPER BOND POWDER

A translucent reinforcing powder for filling holes and cracks

### BENEFITS

- Instant cold welding solution – forms a strong repair once mixed with Super Bond
- For filling holes and cracks and for small assembly repairs
- Can be drilled, filed, tapped, milled, sanded and painted

Part No. 86557 – 100 ml tube

## SUPER BOND PROTECT

Cream preventing fingers accidentally sticking to each other when using Super Bond adhesives

### BENEFITS

- Contains dirt emulsifying ingredients – facilitates easier skin cleaning
- pH neutral and silicon free – bodyshop safe
- Dermatological tests rated as "Very Good" – no allergic or toxic-irritating reactions

Part No. 86558 – 20 ml bottle

## SUPER BOND REMOVER

For the removal of cured excess of Super Bond adhesive

### BENEFITS

- Powerful – high dissolving solution
- Fast action – removes cured Super Bond adhesives in a minute
- Safe on most surfaces – metal, glass, most plastics, textiles

Part No. 86516 – 20 g tube

## SUPER BOND ULTRA GEL

A non-sag rubber-toughened instant adhesive with excellent gap filling properties

### BENEFITS

- Gap filling – the best choice for filling small cracks and holes
- Excellent impact strength
- Non-sag gel – ideal for applications on vertical and overhead surfaces

Part No. 86517 – 20 g bottle

## SUPER BOND FLEX

A black rubber-toughened instant adhesive for bonding flexible materials

### BENEFITS

- Rubber-toughened – ideal for repairs which must remain flexible
- Good impact strength – resists vibrations and shocks
- Reduced dripping – for application on vertical surfaces

Part No. 86624 – 6 g pen

## SUPER BOND PEN

A universal instant adhesive in a pen for restoring and precision-repairs

### BENEFITS

- Optimal for restoring, tiny assemblies, electronics, scale modeling etc.
- Precision pen – for high precision
- Strong performances – high tensile and shear strengths

Part No. 86629 – 150 ml aerosol

## SUPER BOND ACTIVSET

A fine mist spray for increased bond strength and accelerated cure

### BENEFITS

- Primer and accelerator in one – for improved bond strength and accelerated cure
- Fine mist spray – for a homogeneous application
- Non blooming – for a perfect finish on visible repairs
